

Today: Ethics-
animals as research
subjects

Life has all of these traits.

▼ Order

▲ Response to the environment

▲ Evolutionary adaptation

▲ Regulation

▲ Energy processing

▲ Reproduction

▲ Growth and development

How different are we from other animals?

We did not have time to see all of these videos in class. They are all excellent, so I have included them in case you want more information on this topic.

Dr. Robert Sapolsky: How unique are humans?

http://www.ted.com/talks/robert_sapolsky_the_uniqueness_of_humans.html

Bonobos that write.

http://www.ted.com/talks/susan_savage_rumbaugh_on_apes_that_write.html

Monkey versus human economics.

http://www.ted.com/talks/lang/eng/laurie_santos.html (monkey-nomics, human-nomics)

Dr. Jane Goodall speaking about her work and human uniqueness.

http://www.ted.com/talks/jane_goodall_on_what_separates_us_from_the_apes.html

Dr. Frans de Waal speaking about human uniqueness, and what we can learn from other primates.

<http://www.youtube.com/watch?v=CmESEHbdtPw> (Frans de Waal)

<http://www.youtube.com/watch?v=MXUkBQ57em8> (Frans de Waal)

Inquiry 2 reports...
