

Name:

Career Path Lab Exercise Dr. Reichler's UGS 303: Research Methods summer 2011, due in lab 8/8 or 9

Please find information about a science career, excluding careers in medicine and professors. You will then share what you discovered with the rest of the class in your **lab** on M 8/8 or T 8/9.

First, you need to choose a science career (no medical industry or professors) that you are interested in exploring.

**Job Title:** \_\_\_\_\_

For this job find the following information:
